Renault MASTER

Practical, tough and versatile

Renault Master: Practical, tough and versatile

The Master Van has been specifically designed to adapt to your most demanding requirements. With load volumes of up to 17m³ and payloads of up to 1,610kg on our 3.5T versions (2,122kg on 4.5T versions), the Master helps you make efficient use of space. From Tippers to Lutons we offer a wide range of factory conversions to fit your needs! Our Platform and Chassis Cab versions offer you versatility as they can be converted into a vast array of products: from motorhomes to curtainsiders and even horseboxes. To complete, the Master aims to make your working day easier and safer with ESC (Electronic Stability Control) standard on all versions.

Versatile

Panel and Crew Vans

Available to choose from 4 wheelbase lengths and 3 roof heights on Panel Vans. Need to get tools and a team to the site? The Crew Van has seating for 7 and can still carry the tools you need for the job.

Conversions

A comprehensive range of factory converted products are available to order directly from our dealer network as a 'one stop shop'.

Passenger

With seating for up to 17 people the Master Passenger is the ultimate way to transport clients, employees or the family.

New Master Z.E.

It's time to enjoy the pleasure of owning an Electric Master. All the main features from its diesel versions, but with lower running costs and a quieter ride with a 100% electric power unit.

Twin Turbo: doubly effective

With Twin Turbo technology, the Euro 6 ENERGY engines (dCi 145, dCi 165 and dCi 170) offer more power than their Euro 5 equivalents.

"Twin Turbo" technology

The ENERGY variants of the 2.3 Litre Master include twin turbo technology which enables you to combine torque at low speeds and high power to improve your driving pleasure. Your ENERGY engine includes 2 sequential turbochargers:

- Your first low inertia turbo gives you high torque from low speeds giving you greater responsiveness when pulling away from a stationary position.
- At higher speeds the second inertia takes over allowing you to call on more power without running out of steam which gives you a smooth and steady acceleration.

This system means your engine is always operating in its optimal yield bracket providing benefits for CO₂ emissions and efficiency.

EURO 6 and AdBlue®

All our engines are Euro 6 compliant ensuring you take advantage of the latest engine technology. The Master engines also feature an upgraded SCR (Selective Catalytic Reduction) system which, when coupled with AdBlue®, cuts harmful Nitrous Oxides (NOx) emissions by over half! * AdBlue® is a clear, non-toxic and non-flammable water-based liquid which is added to the engine, meaning you still receive the maximum efficiency while reducing harmful pollutants.

Renault Sport Formula One Team™

Allow the technology that powers the Renault Sport Formula One Team™ to power your business!

* Cuts emissions in half when compared to Euro 5

Your comfortable workspace

The Renault Master has been developed to meet the needs of professionals like you! Whether its your ergonomic adjustable driver's position or your pivoting seatback table⁽¹⁾ in the central front passenger seat with plenty of storage space, we at Renault have engineered the Master to ensure you have everything you need close at hand! With our on-board infotainment including our DAB radio with Bluetooth[®] * and AUX or even our R-Link Multimedia system⁽²⁾ we keep you entertained whatever your journey. With our vast range of configurations you're sure to find the Master that suits you!

(1) standard from Business+ (2) optional

*For compatible devices, please refer to <https://www.renault.co.uk/services/multimedia/bluetooth-compatibility.html>.

Giving you assistance and control

Here at Renault, nothing is more important to us than your safety which is why our range of driving assistance systems is more innovative than ever and come as standard on all our vans! From Hill Start Assist to Grip Xtend to ESC (Electronic Stability Control) we are here to help you navigate over a variety of driving scenarios. In addition, our newly introduced Power Traction will assist your van on maintaining traction when driving on slippery surfaces, increasing protection on both you and your load!

For our larger vans (over 4.5T) we've added our Lane Departure Warning system as standard – so if you're straying out of the white lines without indicating we've got a buzzer to remind you to stay safe and in your lane! Plus, we introduce you our new Active Emergency Braking System (AEBS) system exclusively for vehicle over 3.5Ts.

Trailer Swing Assist

If your trailer starts swaying we've got you covered – our system works with ESC and brakes, reducing power and torque until it stops swinging

Rear Parking Sensors⁽¹⁾

Parking made all that bit easier with sensors alerting you when you're getting close to what's behind you

Grip Xtend

Helping you navigate over loose surfaces at the push of a button

16" Steel wheels with large stylers⁽¹⁾

Electronic Stability Control

Helps keep you stable in the Master, even when faced with extreme driving conditions

Hill Start Assist

No more tricky hill starts as your van will hold you for a couple of seconds to ensure you have time to pull away in gear

⁽¹⁾ standard from Business+

Check the next page for even more impressive assistance features

Active Emergency Braking System

Here at Renault Pro+, we strive to ensure your security. That is why we now deliver your van with the latest Active Emergency Braking System (AEBS). With radars integrated in the front bumper of the vehicle, AEBS measures the distance between your van and the vehicle in front of you, emitting visual and sound alerts to warn you if you're getting too close to the vehicle in front. In addition, this system is automatically switched on every time you start your vehicle, and comes as standard on all our 4.5T Master Vans and our 17 seat Master Passenger, improving your safety and the safety of your passengers!

Only available on vehicles over 3.5T Gross Vehicle Weight

Getting you through the toughest conditions

4X4 (option on selected RWD vans)

Be it snow, mud or torrential rain, our Master Van is designed to take it all while keeping you comfortable in your seat. With the new 4x4 system available on selected versions of our RWD vans, we now give you the option of choosing a fully mechanical 4x4 system from our partners at Obergaigner that coupled with underbody protection and mud and snow tyres allows the Master to go where you need it to go.

Power Traction (option on 3.5T FWD vans)

In addition to the full 4x4 system, we now offer you the option of including Power Traction into your van. Featuring a mechanical Limited Slip Differential (LSD) diverting up to 75% drive power to the wheel with the greatest traction. This is coupled with underbody protection, raised ground clearance and mud and snow tyres all from our partners at Poclain®.

Master 4X4 is only available on 3.5T Chassis Cab Single Cab, Dropside Single Cab, Dropside Double Cab & Panel Vans. Must be ordered with a locking differential and is not available with MediaNav, Lane Departure Warning, Automatic High-Low Beam or 4.5T versions. Due to the weight of the 4x4 system selecting this option will reduce your payload.

Power Traction is not available on Master Z.E., Quickshift6 or High Roof versions nor on Platform Cabs, Luton Loaders, 17 seat Minibus / Trabus & Motorhomes or with Air Suspension.

Ready4Work by Sortimo

For professionals that need to store tools and equipment, the Ready4Work by Sortimo system arrives at your dealer fully fitted so you can get straight to work. The storage is designed specifically for Renault, so no drilling into the vehicle floor is required.

Master near side Basic block

Master near side Standard block

Master near side Premium block

Master off-side Basic block

Master off-side Standard block

Master off-side Premium block

You can choose from a variety of options including having racking on either one side only or having racking on both sides. For full details of what is available, please refer to the LCV Accessories brochure. Designed to provide professionals with a durable racking system suitable for the storage of a wide range of tools, components and accessories.

Construction:

- All shelves are made of steel with a load capacity of 60 Kg each
- Aluminum uprights with integrated lashing system (Prosafe system)
- Ready4Work comes with a 9mm thick protective floor with integrated anchorage points
- The protective floor is resistant to soil and water, easy to clean, extremely scratch proof and impact-resistant
- Aluminum strips protect the door sills

Suggested packs:

- Suggestion A: Standard offside racking with safety floor
(Offside racking is not compatible with right side loading door)
- Suggestion B: Basic racking on both sides with safety floor

Technology and innovation

MediaNav (optional)

Enjoy stress free travel with Renault MediaNav (optional). The touchscreen tablet allows you to access to an array for features including our navigation provided by Navteq® and a number of media sources such as DAB radio and hands free calls using Bluetooth® technology.

R&GO

Turn your smartphone or tablet into a touchscreen for your dashboard! R&GO includes a 3D navigation from CoPilot® and Eco driving score. Our Eco driving score includes a trip computer, a rev-counter and the ability to monitor your fuel consumption! Its free to download for compatible Android and iOS smartphones*

*For compatible devices, please refer to <https://www.renault.co.uk/services/multimedia/bluetooth-compatibility.html>

R-Link (Optional)

Our 7" touchscreen multimedia system includes navigation with TomTom® maps (we even give you a 12 month TomTom® Live services subscription), DAB radio and your very own 'Eco Driving Coach' giving you handy tips to improve your driving style. With R-Link you also have the ability to download apps from the R-Link Store and can control the system from the screen steering wheel controls or even voice command!

Main menu with 6 icons

Discover the six available menus: navigation, multimedia, telephone, vehicle information, services and applications, system settings.

Touchscreen navigation system

With TomTom® maps and a 12 months subscription to LIVE services from delivery.

Multimedia*

FM/AM/DAB tuner, you can also connect devices via USB, AUX sockets or Bluetooth®.

Reverse parking camera system (additional option)

Rear parking sensors with reverse parking camera, which displays the image on the navigation system screen alongside guidance aids.

Vehicle information

The fun "Eco Driving" coach gives you handy tips to improve your driving style and reduce your fuel consumption.

Voice control*

Set your destination, call a contact or launch an application, all hands free, with voice control.

*For compatible devices, please refer to <https://www.renault.co.uk/services/multimedia/bluetooth-compatibility.html>

Connecting a mobile phone to use Bluetooth® should only be done when the car is parked safely. Use of the system should always be in accordance with the rules of The Highway Code. Drivers should only use the system when it is safe to do so. Drivers should be aware of the potential for hands-free technology to distract attention from the road, which could impact on having full control of the vehicle

Optimal loading

Available in 4 lengths and 3 heights the Master can offer you load volumes from 8m³ to 22m³ and payloads of up to 2,122kg* (on rear-wheel drive 4.5T versions)

If it's load space you're after, then the Renault Master is the vehicle for you! Whether you're choosing the front-wheel drive version (with load lengths up to 3,733mm and volumes up to 14.8m³) or rear-wheel drive versions (load lengths up to 4,383mm and volumes up to 17m³) we've engineered the Master to fulfil your needs. If you need more space, our off-the-shelf conversions can offer you a staggering load volume of up to 22m³!

Whatever your job, the Renault Master will always be up to it. Our LHL single rear-wheel drive versions are perfect for transport and with 17m³ of load volume its ideal for your distribution or express courier services. With its two leaf springs at the rear it combines comfort and loading capacity, delivering you ideal driving comfort for motorways and other long distance driving.

*L2H2 single front-wheel drive (10.8m³).

Image not to scale.

L4 single rear-wheel drive.

L2 single front-wheel drive.

Euro-pallets welcome.

With the Renault Master you get the benefit of the maximum width of 1,380mm (single wheel) and the 1,270mm side loading opening. At the rear, there's the option of large autoclave doors opening 270 degrees. These features combine to allow your Master front-wheel drive the ability to transport 4 euro pallets, with your rear-wheel drive versions able to transport 5 euro pallets.

The New Master Premier Edition - Join the Elite

Presenting the new Master Premier Edition! Created to celebrate Renault's new football television partnership, this Special Edition Van is the cream of the crop when it comes to bringing it home. Its 16" black alloy wheels contribute to an enjoyable and comfortable ride, while its intelligent and innovative design allows the new Master Premier Edition to carry up to 13m³ of cargo, so you can carry all your goods with ease. With a rear view camera, R-Link Infotainment System and many more features fit as standard, the new Master Premier Edition will surely raise your standards when it comes to vans! So give others the Red card and win the league with the new Master Premier Edition.

DASHCAM WITH ADAS FEATURES INCLUDE:

- Equipped with Advanced Parking Mode
- Lane Departure Warning
- 3M Pixels Video Recording
- Built in G-Sensor
- Forward Collision Warning
- Departure Delay Warning

Cutting emissions and your costs: the New Master Van Z.E. – 100% Electric

Introducing the New Master Van Z.E. – ultra low running costs, zero emissions whilst driving and 124 miles (NEDC), giving real world of driving range of 75 miles in summer and 50 miles in winter. All that while maintaining the same dimensions of its diesel equivalents! The New Master Van Z.E. has an impressive load capacity of up to 13m³ and a payload that goes up to 1,128kg, plus all the extra benefits of owning an electric vehicle. Quiet road noise, no congestion charges* and low running costs from less than 6.5 pence per mile** prove that our New Master Z.E. will not only be a great purchase for your fleet but also for your pocket!

*emission based congestion charges in ULEZ's including London Congestion Charge as of Sept 2018. **Less than 6.5p per mile calculated by (a) electricity charges (e.on Go Online 1 Year v18) rates for payment via monthly Direct Debit as of Sept 2018) and (b) a full recharge of the 33kWh battery giving £5 full recharge cost divide by the real world summer range in miles.

Find the electric LCV that's right for you!

Z.E. - Full purchase

To prevent you from the hassle of worrying about monthly plans, we provide you your Master Z.E. with batteries included.

No on-going monthly payments, just one simple payment.

No mileage limit.

Battery guarantee* of 5 years / 60,000 miles, whichever comes first, this includes the battery performance guarantee to at least 70% of its original capacity.

Roadside assistance, breakdown only.

¹Requires conversion

Driving Range

With the latest technology used to develop our batteries, the Master Z.E. has an outstanding NEDC range of 124 miles with only one charge, ensuring you reach your destination with no worries! The real life estimates of 75 miles in summer and 50 miles in winter also give an insight of how powerful these batteries are, reducing your need to be constantly charging your vehicle and allowing you to enjoy the ride!

NEDC range* (miles)	Summer (+20°C)	Winter (-5°C)	Cost in Pence p/per mile†	Cost per full recharge†
124	75	50	Less than 6.5p	Less than £5

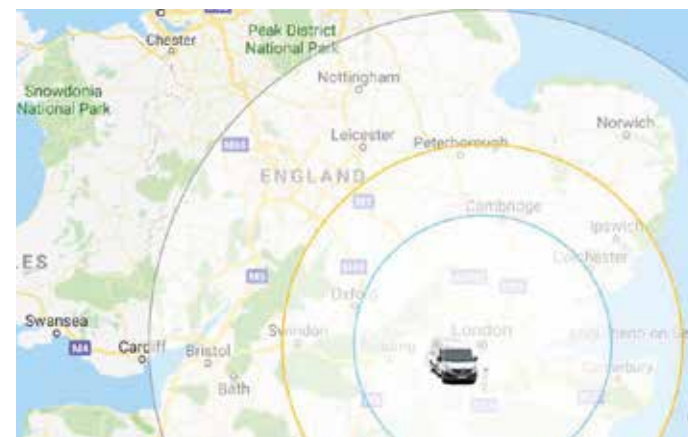

Top tip: Need an extra boost to get home? The Master gains 15 miles on just an hour of charge.

***What is the NEDC and why does real-life range differ so much from it?**

The NEDC is a standardised European test procedure which can be used to compare fuel consumption of different models and manufacturers, as the tests put vehicles under the same conditions. In real life many factors such as your driving style, the type of journey, your speed and the climate affect how far your Master Z.E. will go. This is why we at Renault give you realistic summer and winter figures based on our testing of the vehicle, rather than just the theoretical driving range.

****Why is the range reduced in winter?**

Like all batteries, those in Z.E. vehicles are less efficient in cold weather than at warmer ambient temperatures. This means that you can expect a reduction in the range of your Renault Z.E. in the winter. Also, in winter you are more likely to use the heating, which means the Master Z.E. consumes more energy.

Estimated range for the Master Z.E.

— NEDC range
— Summer Range
— Winter Range

Charging solutions – options that suit your needs!

We offer you several charging solutions to make sure your vehicle is always ready to go!

Type of charger	Where to use it	Power required	Charging times (0-100%)	
Home (3-pin plug cable)*	Home / Office	2.3kW/10A	17 hours	Occasional slow charging. *Requires additional purchase of a EVSE cable.
	Home / Office	3.3kW/14A	12 hours	
Wallbox / Public charging point	Home / Office / On the go	3.7kW/14A	11 hours	Leaving the Master to charge overnight on a 3.7kW charger ensures that it will be ready for when you to begin your next day.
	Home / Office / On the go	7kW	6 hours	
Public charging point	On the go	22kW	6 hours	A standard charging time of 6 hours means your vehicle is ready to go when you are.
	On the go	43kW	6 hours	

†Less than £5 full recharge cost, calculated by (a) electricity charges (e.on Go Online 1 Year v18) rates for payment via monthly Direct Debit as of Sept 2018) and (b) a full recharge of the 33kWh battery.

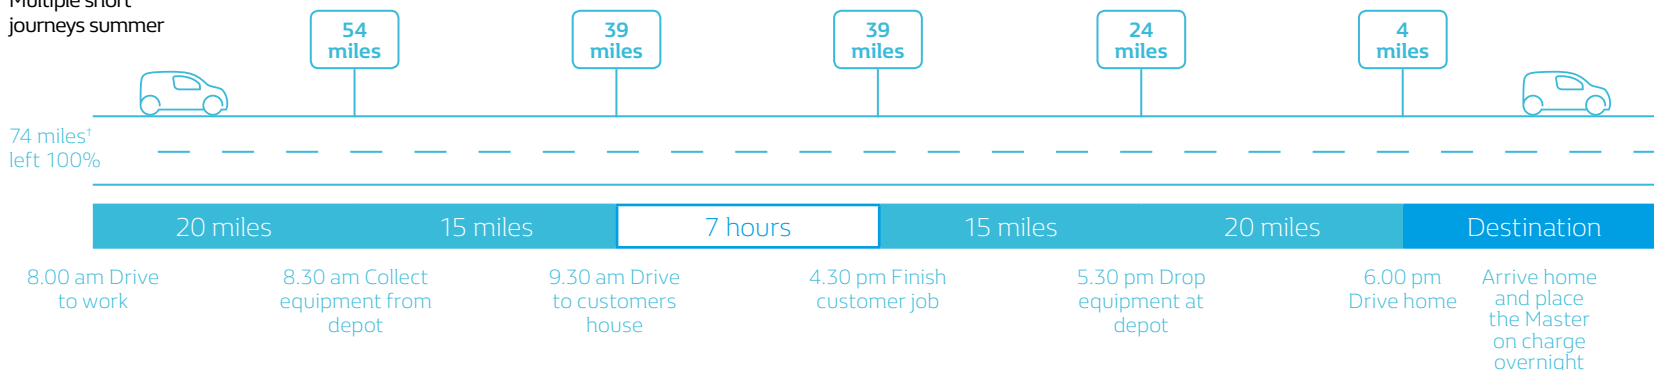

Charging Your New Master Z.E.

KEY

■ Driving Distance ■ Charging Time

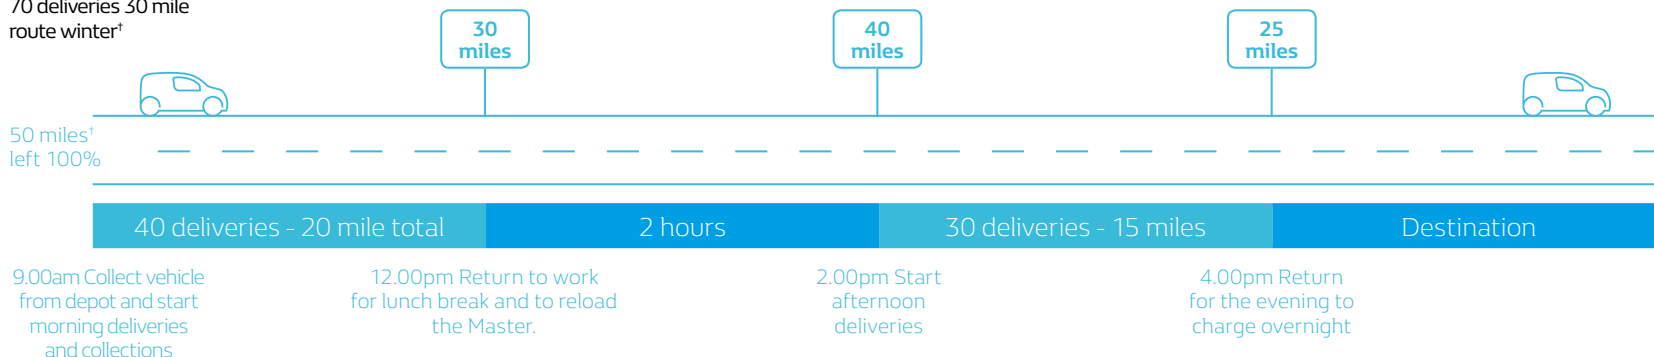

CHARGING AT HOME – couldn't be easier to charge your New Master Z.E. at home*, just park your van, plug it in and go inside.

Multiple short journeys summer

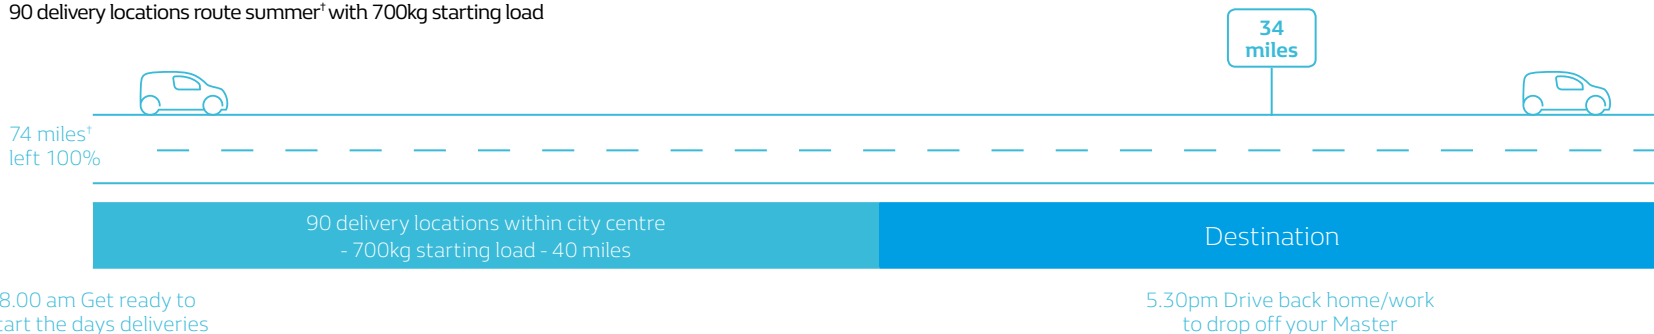

CHARGING AT WORK – there are a number of solutions to suit your business needs.

70 deliveries 30 mile route winter[†]

OUT ALL DAY – The New Master Z.E. can keep going all day, especially on high stop and start routes.

90 delivery locations route summer[†] with 700kg starting load

* subject to off street parking and wall-box suitability.

[†] Official consumption figures are produced for comparison purposes and are measured according to the European Regulation 692/2008 and may not reflect real life driving results. These figures are specific for a vehicle type and not for a single vehicle. Real world range (actual) can vary as the efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the range. For further information, please visit the Vehicle Certification Agency web site www.vca.gov.uk. For more information on CO₂ banding and Company Van Tax Benefit in Kind go to www.renault.co.uk

Standard features

BUSINESS

16" steel wheels with small wheel stylers

KALEIDO trim - Dark Grey

THE BASICS:

- Alarm (excluding Master Z.E.)
- ABS with EBD (Electronic Brake force Distribution)
- Deadlocking
- 80-litre fuel tank
- 22-litre AdBlue® tank
- Electric front windows
- ESC (Electronic Stability Control) with Grip Xtend, Hill Start Assist and Trailer Swing Assist

MAKING YOUR JOURNEY COMFORTABLE:

- 2 cup holders on centre console
- Driver's seat – height adjustable, lumbar adjustment and armrest
- Height adjustable steering wheel
- Passenger bench seat
- Overhead parcel shelf

WHAT YOUR VAN LOOKS LIKE:

- 16" steel wheels with small wheel stylers
- Rear doors – unglazed 180°
- Door mirrors – electric adjustment, heated
- Unglazed left side loading door

PROTECTING YOU AND YOUR LOAD:

- Full Steel bulkhead
- 3 point height-adjustable seatbelts with pretensioners
- Anchorage points – 8 for SWB and 10 for MWB and LWB
- Spare wheel

KEEPING YOU CONNECTED:

- 2x15W DAB radio with, CD, Bluetooth® and USB connectivity**
- Eco mode function
- 12V power socket – dashboard and centre console

GOING ELECTRIC:

- Side Z.E. charging socket
- Pre-heating function
- Z.E. Voice
- Engine speed limiter 62 mph
- Standard charging cable 32A (IEC 62196 - Type 2 Mennekes) 6m

[^]Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, a 100% full AdBlue tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to a 5% manufacturing tolerance and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, could result in a higher Kerb Mass and a reduced Payload, and may increase CO₂ and decrease MPG figures. [†] Official fuel consumption figures are produced for comparison purposes and are measured according to the European Regulation 692/2008 and may not reflect real life driving results. These figures are specific for a vehicle type and not for a single vehicle. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the fuel consumption. For further information, please visit the Vehicle Certification Agency web site www.vca.gov.uk. For more information on CO₂ banding and Company Van Tax Benefit in Kind go to www.renault.co.uk

Unless otherwise stated, dimensions are indicated in mm and weights in kg. [^]Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, a 100% full AdBlue[®] tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to a 5% manufacturing tolerance and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, could result in a higher Kerb Mass and a reduced Payload, and may increase CO₂ and decrease MPG figures.

Master Conversions

Renault can offer you a comprehensive range of factory converted products, available for you to order directly from our dealer network as a 'one-stop-shop'. If our factory products are not quite what you're looking for, we've also got a range of chassis and platform cabs that can be converted to meet your exact needs! All our converted vehicles come with our full manufacturers warranty (3 years/100,000 miles).

Our Accredited Converters compliment our factory products by offering you a range of bespoke solutions to meet your specific needs. A full list of the Accredited Converters we work with can be found at www.conversions.renault.co.uk.

We assess the technical and quality processes of all our accredited converters and provide them with specialist support and backup to ensure the quality of your conversion meets the standards expected by Renault as well as any legal and technical requirements. Regular assessments and quality training is provided by Renault to the converters to ensure these high standards are maintained.

We at Renault take responsibility for the base vehicle, and the converter is responsible for all aspects of the conversion. In most cases the conversion will match our warranty*. For further assistance contact the Converter Hotline on 0800 040 7343 or email converterhotline@Renault.co.uk

*Some exceptions apply (please check with your supplying dealer for the converter warranty statement)

Standard features

BUSINESS

Tipper

Dropside flatbed

Platform cab

Chassis cab

THE BASICS:

- Alarm (Excluding Master Z.E.)
- ABS with EBD (Electronic Brake force Distribution)
- Deadlocking
- 80-litre fuel tank
- 22-litre AdBlue tank
- Electric front windows
- ESC (Electronic Stability Control) with Grip Xtend, Hill Start Assist and Trailer Swing Assist

MAKING YOUR JOURNEY

COMFORTABLE:

- 2 cup holders on centre console
- Driver's seat – height adjustable, lumbar adjustment and armrest
- Height adjustable steering wheel
- Passenger bench seat
- Overhead parcel shelf

WHAT YOUR VAN LOOKS LIKE:

- 16" steel wheels with small wheel stylers
- Side market lights wiring (on LL, MLL and LLL versions only)
- Door mirrors – electric adjustment and heated

KEEPING YOU CONNECTED:

- 2x15W DAB radio with, CD, Bluetooth and USB connectivity**

PROTECTING YOU AND YOUR LOAD:

- Full steel bulkhead glazed – unglazed on Platform Cab and Luton Loloader
- Spare wheel

GOING ELECTRIC:

- Side Z.E. charging socket
- Pre-heating function
- Z.E. Voice
- Engine speed limiter 62 mph
- Standard charging cable 32A (IEC 62196 - Type 2 Mennekes) 6m

DOUBLE CAB ADDS:

- 2nd row of 4 passenger seats
- Glazed left and right rear lateral doors
- Single passenger seat on Twin Rear Wheel, Tipper and Dropsides only**

RWD ADDS:

- Engine speed limiter of 56mph – 4.5T versions only (to meet legal requirement)
- Digital tachograph and CAN interface unit – 4.5T version only

TIPPER ADDS:

- Rear tipping 'Scattolini' body (45 degrees)
- Hot-galvanised steel loading deck – 2mm thick
- Aluminium side and rear panels – 400m high
- Aluminium cab protecting grid with ladder/long object rack

ALUMINIUM TIPPER ADDS:

- Tipper sub-frame manufactured from aluminium, constructed using "state of the art" robotic aluminium Spot and TiG welding
- Aluminium Cab Protector
- Aluminium / Composite Tool Pod fitted as standard on single cab LL versions
- Additional options available on request via VFS

DROPSIDE ADDS:

- Hot-galvanised steel front side panel and platform
- Anti-slip wooden floor
- 6 to 8 anchorage points (depending on versions)
- Folding and removable aluminium side and rear panels – 400mm high
- Foldaway step on rear side panel
- Aluminium cab protecting grid with ladder/long object rack

LUTON BOX VAN ADDS:

- 11mm thick GRP side panels, with fibreglass roof skin on a 65 mm alloy frame
- 15 mm thick wisdeck birch floor
- Luton front providing over-the-cab storage fitted as standard
- Rear doors - roller shutter on alloy frame with rear columns designed to support column mounted tail-lift
- Additional options available on request via Truckcraft Bodies

*For compatible devices, please refer to www.Renault.co.uk/services/multimedia/bluetooth-compatibility

**Passenger bench not available

[^]Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, a 100% full AdBlue[®] tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to a 5% manufacturing tolerance and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, could result in a higher Kerb Mass and a reduced Payload, and may increase CO₂ and decrease MPG figures. [†] Official fuel consumption figures are produced for comparison purposes and are measured according to the European Regulation 692/2008 and may not reflect real life driving results. These figures are specific for a vehicle type and not for a single vehicle. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the fuel consumption. For further information, please visit the Vehicle Certification Agency web site www.vca.gov.uk. For more information on CO₂ banding and Company Van Tax Benefit in Kind go to www.renault.co.uk

[illegible]

Unless otherwise stated, dimensions are indicated in mm and weights in kg. ^Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, a 100% full AdBlue tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to a 5% manufacturing tolerance and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, could result in a higher Kerb Mass and a reduced Payload, and may increase CO₂ and decrease MPG figures.

Unless otherwise stated, dimensions are indicated in mm and weights in kg. ^Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, a 100% full AdBlue tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to a 5% manufacturing tolerance and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, could result in a higher Kerb Mass and a reduced Payload, and may increase CO₂ and decrease MPG figures.

Master Passenger Vehicles

Our 17 seat Master Minibus is widely recognised as one of the most stylish and well-finished minibuses in the UK market. Whether you're transporting big groups or for private hire, we have tailored features to suit your needs. Our minibus is also currently one of the best in terms of ownership costs, giving you an extra advantage and reducing your running costs.

With our auto engaging electric step, Bluetooth®, lane departure warning and high low beam as standard, your minibus is one of the best equipped in the UK market. It is also M2 European Whole Vehicle Type Approved (ECWVTA 2001/85/EC107) to offer you and the operator peace of mind. Your seats are M1 homologated so you have a car level of safety and security as you transport your most precious cargo – people!

Standard features

STANDARD

16" steel wheels with small wheel stylers

FUNAIA trim - Blue/Orange

17 SEAT MINIBUS

THE BASICS:

- ESC (Electronic Stability Control) with Grip Xten, Hill Start Assist and Trailer Swing Assist

[†] Official fuel consumption figures are produced for comparison purposes and are measured according to the European Regulation 692/2008 and may not reflect real life driving results. These figures are specific for a vehicle type and not for a single vehicle. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the fuel consumption. For further information, please visit the Vehicle Certification Agency web site www.vca.gov.uk. For more information on CO₂ banding and Company Van Tax Benefit in Kind go to www.renault.co.uk

Any additional equipment added (options or accessories), or the selection of a higher trim level, could result in a higher Kerb Mass and a reduced Payload, and may increase CO₂ and decrease MPG figures.

Accessories

Universal Coupling

A range of Renault tow bars offers excellent durability and syncs perfectly with the ESC system to activate Trailer Swing Assist. (Fitted with a 7-pin plug as standard, adaptors are available).

'Pintle Hook' with ball

Standard Ball

Rear Protective Window Grilles

Window protection grilles designed specifically for your Master. Protects goods being transported whilst maintaining a clear rear view.

Aluminium Roof Rack

Specially designed for the Master, the aluminium roof rack is equipped with a rear sliding roller to aid loading. The maximum load is 149 kg.

Roof Bars

Available in pairs, these bars can carry up to 89 kg (per pair). Made from aluminium, they have been intensively tested to guarantee performance and resistance to corrosion.

Catalytic Converter Protector

Specialist anti-theft device to protect your catalytic converter from theft.

Ply Lining

Protect the interior of your Master with our hardwearing, bespoke ply lining. The price includes fitting by Renault.

Alarm - Thatcham Category 1

Protect your Master.

Carpet Mats

Protect your Master from everyday dirt, wear and tear with a set of genuine Renault mats. Available in carpet or rubber to suit your lifestyle, Renault mats are made to measure for your vehicle.

Walkway and Ladder

The galvanised steel ladder and walkway facilitate loading onto the rack.

For prices, please refer to the Renault Van Price Guide available at your local dealer and on www.renault.co.uk

Renault Pro+, the expert brand

Renault have been part of the LCV market for over a century and we pride ourselves on providing you with versatile and innovative solutions in both our products and services.

We have taken over a century's worth of experience in the LCV market along with learnings from our strong customer relationships and created Renault Pro+, an expert brand dedicated to both our loyal and new light commercial vehicle customers alike. Encompassing our award winning products, services and commitments, Renault Pro+ builds on a strong foundation to inspire further creative innovations. This allows us to offer our customers a tailored approach including bespoke solutions to suit all their needs. Our customers deserve a high quality experience and as professionals we strive to understand each other.

Renault Services

3 Years Warranty

Your vehicle is covered by a warranty package for up to 3 years from date of first registration (unlimited mileage during the first 24 months, followed by a further 1 year limited to a total mileage of 100,000). Your Renault Dealer is able to repair or replace without charge, parts that are found to have a material or assembly defect that is recognised by Renault. The paintwork warranty runs for 3 years and the anti-corrosion warranty for 6 years.

For Warranty Terms and Conditions please visit www.renault.co.uk/warranty.

3 Years Renault Assistance

Should you need it, we'll provide emergency roadside repairs or tow you to the nearest Renault Dealer. This service is available 24 hours a day and is provided for 36 months from the date of first registration. Assistance is provided within the UK & Northern Ireland only at roadside, home and includes national recovery and onward travel. Assistance applies to mechanical or electrical defects which are covered by warranty.

For Renault Assistance Terms and Conditions please visit www.renault.co.uk/assistance.

Service Intervals

18,000 miles / 2 years: Master 17 seat minibus

25,000 miles / 2 years: Master all other engines and versions

Renault Network Services

No-one is better placed than Renault to maintain, fit and repair your Renault, fast. The Renault Minute (maintenance and repair with no appointment necessary) and Renault Rapide Bodycare (bumper scuffs, dings and dents, windscreen, stone chips and interior repairs...) services deliver the highest level of repair and maintenance and offer a full year's guarantee on original Renault parts. Don't forget to have a look at our wide range of additional equipment and accessories!

Renault iCare

Is an innovative Service, Maintenance & Repair product that supplies Business customers with a fully supported, managed hassle free service and maintenance package.

Renault iCare is a "Pay-As-You-Go" product that insures your vehicle is maintained by Renault technical experts when work is required.

iCare provides the following benefits:

- Full Service, Maintenance & Repair cover in the Renault Dealer Network
 - Tyres can be included within the contract at an additional fixed cost
 - Ancillary equipment can also be included (at an additional fixed monthly cost)
 - Excludes: Damage/Neglect/Abuse/Glass & Bulbs
- A fixed, pre agreed pence per mile rate
- No excess mileage charges at the end of the contract
- No pooled mileage administration
- Minimalise downtime

For more information and to obtain a quote based on your requirements, please speak to your local Renault Business dealer or visit www.renault.co.uk/icare

Customer Relations

Renault knows the value of communicating with its customers and we have established effective ways to keep in touch with you. If, after speaking to your local Renault dealership, you are not completely satisfied, please contact the Renault UK Customer Relations Department on 0344 3350000* (Mon-Fri 9.00am to 5.30pm, except Weds 10.00am to 5.30pm. Closed on Bank Holidays). You can also visit our website www.renault.co.uk or write to us at: Renault UK Ltd, The Rivers Office Park, Denham Way, Maple Cross, Rickmansworth, Hertfordshire, WD3 9YS.

Finance options*

There are numerous ways that you can finance your new vehicle with Renault. Whether you are a fleet or a private buyer, Renault Finance allows you to tailor your payment plan to your needs and circumstances.

Continue the Renault Master experience
at www.renault.co.uk/vans

Although every effort has been made to ensure that the information contained within this brochure is as accurate and up to date as possible, Renault U.K. reserves the right to modify its models without notice, including their characteristics, specifications, equipment and accessories. Brochures inevitably become out of date or inaccurate in some respects, in that such characteristics, specifications equipment, or accessories may be changed after the publication date given below and can differ from the descriptions given or the photos displayed. It is therefore necessary to check with your Renault Dealer before purchasing any product that the characteristics, specifications, equipment or accessories of the vehicle on order are as advertised. The colours that appear in this document may differ slightly from the actual paint and upholstery colours.
