# Mercedes-Benz Vans. Keeping businesses moving.

The most driven businesses drive Mercedes-Benz vans.

Why? Because we keep them moving...

From delivery firms to dog walkers, supermarkets to safety engineers, paramedics to photographers, and international couriers to local chefs, the people we support are hardworking, self-assured, forward-looking, and hardwired to succeed. And they all share a desire to keep moving.

That's why we continue to make sure our vans are among the most reliable, technically advanced vehicles on the road, and we go further to support our customers' businesses and maximise vehicle uptime.

We're your business partner, not your vehicle supplier. We're with you all the way. And we won't stop, because we know you can't afford to.

"The Vito comes with a reassuring complement of safety features and drives very nicely. Our engineers particularly like the automatic gearbox, which makes life at the wheel a bit less stressful for them."

**Peter Marsh, Managing Director,  
Girbau UK**

# Choose your Vito.

## Step 1: Which model works for you?

### Vito Panel Van

#### Built to work hard for your business

The Vito Panel Van's incredible versatility and easy loading capabilities support businesses of all shapes and sizes. With three lengths to choose from there's a Vito Panel Van to carry your cargo, no matter what the requirement. Plus there's a wide range of options to enhance your driving experience, security and safety, too.

### Vito Crew Van

#### Room to grow your business

If you're looking for space, the Vito Crew Van is the ultimate in hardworking versatility. Three vehicle lengths, a huge load compartment and incredibly spacious passenger compartments mean whether you need to transport goods, people or both, the Vito has it covered – economically, reliably and professionally.

### How to select your van

1. Start by considering if you need to transport passengers, cargo – or both. This will help you decide whether to choose a Panel Van or Crew Van. Think about the number of seats you need and consider the maximum length and height of your load.
2. On the next page, you'll see payload ranges and engine sizes. So, think about the heaviest load you need to carry and power you might need.
3. From the choice available, then decide which trim is right for you. PURE, PROGRESSIVE, PREMIUM or SPORT.
4. Choose a colour and paint type – standard or metallic – and select an upholstery trim that best meets your needs.
5. You can choose to upgrade your wheels if you like – we've a selection of alloy and steel wheels.
6. You can review the range of standard equipment in each trim or choose to enhance and further style your Vito from our range of optional equipment and packages available.

## Get an agreement that suits you with Mercedes-Benz Finance

At Mercedes-Benz Finance we have a number of finance options you can choose from to suit your business needs, because we understand the complexities of running a modern-day business...

### Agility

A flexible method of financing a vehicle over a fixed term. The agreement defers your decision of whether you purchase, hand back or part-exchange your vehicle until the end of your agreement.

- Fixed regular payments mean you can easily budget
- Payments are based only on a proportion of the van's value, keeping your monthly payments lower
- Our Optional Purchase Payment avoids the risk of unplanned depreciation of your vehicle.

### Hire Purchase

A straightforward route to ownership. This is the perfect way to buy a Mercedes-Benz if you want to work your way up to full ownership, spreading the overall cost over a fixed term.

- On completion of the agreement you will own the vehicle
- A flexible deposit and repayment term means you can tailor the financial agreement to suit you
- Monthly payments are not based on annual mileage.

### Operating Lease

A solution for those who want to drive one of our vehicles over a fixed term, with lower monthly rentals and without the worries or commitment of ownership.

- Pay an advance rental upfront
- Rentals are based on your annual mileage agreed at the start of your agreement and only on a proportion of the vehicle's value, keeping your monthly payments lower
- Rentals are allowable against taxable profits (proportionally).

# Finance options

## Contract Hire

Gives you the ability to enjoy driving a Mercedes-Benz without having to take on full ownership. With Contract Hire, you lease your vehicle for a fixed period and for a fixed monthly rental.

- No need for a large initial deposit
- Repair and Maintenance options are also available
- VAT is reclaimable depending on usage (proportionally).

## Finance Lease

Allows your vehicle to appear as an asset on your balance sheet, without the option of ownership as you hire a vehicle for a fixed period.

- Fixed regular payments enable you to easily budget
- The vehicle is an asset on the balance sheet, therefore tax allowances may be deducted from taxable profits
- Payments are not based on annual mileage.
